PROFESSIONAL SUMMARY

Software Engineering student in the final stretch of the program (5th semester) and self-driven Junior Developer specialized in building production-ready web and mobile-friendly applications with AI as a core development tool. Hands-on experience with full-stack stacks (React, Node.js), advanced Claude usage for end-to-end product development, Shopify Liquid e-commerce, REST API integrations, and payment gateways (Wompi). Ships and deploys products on Vercel. Bilingual (English C1 – EF SET 70/100, Spanish native), strong problem-solver, and eager to grow inside a remote or hybrid team based in Medellín as a Trainee or Junior Developer.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, HTML5, CSS3, Liquid

Frontend: React.js, Responsive Design, Mobile-first Development, Component-based UI

Backend: Node.js, REST APIs, JSON, third-party API integration, Java fundamentals

AI Development: Advanced Claude usage (advanced prompting, multi-step workflows, AI-assisted full-stack app building), Lovable, prompt engineering

E-commerce: Shopify (theme development, Liquid templating, sections, app integrations, store maintenance)

Payments: Payment gateway integration — Wompi (Colombian market)

Deployment & DevOps: Vercel (production deployments, custom domains, environment configuration), Git, GitHub

Tools & Workflow: VS Code, Chrome DevTools, Figma (basics)

Spoken Languages: English – C1 Advanced (EF SET 70/100, Platzi certified) · Spanish – Native

Soft Skills: Problem-solving, Client communication, Self-management, Teamwork, Fast learning

PROFESSIONAL EXPERIENCE

Freelance Shopify / Web Developer — itrio39.com

Remote · Medellín, Colombia

July 2025 – Present

- Lead end-to-end front-end design and implementation of a live e-commerce storefront currently serving customers in Colombia.
- Develop reusable Shopify sections and components with Liquid, HTML, CSS, and JavaScript to enable non-technical content editing by the client.
- Maintain site uptime and performance: regular content updates, theme troubleshooting, and Shopify app management and integration.
- Coordinate directly with the client to gather requirements, prioritize releases, and deliver iterative improvements.

Freelance Shopify / Web Developer — Dosventidoskincare.com

Remote · Medellín, Colombia

February 2025 – June 2025

- Designed and built a custom skincare e-commerce storefront on Shopify from a blank theme to a fully functional store.
- Developed modular Liquid sections to give the client full control over product, banner, and content blocks without writing code.
- Implemented mobile-first responsive layouts to improve cross-device usability and conversion potential.
- Delivered the complete theme, assets, and documentation at project handover.

SELECTED PROJECTS

AI-Powered Web Applications — Personal Portfolio (2025)

- Designed, built, and shipped 4 production-grade web applications on Vercel that solve concrete real-world problems, using React, Node.js, and AI-assisted development.
- Implemented REST API integrations and payment gateway flows (Wompi) for transactional features.
- Leveraged advanced Claude usage to scope features, generate, refactor, and debug full-stack code end-to-end, accelerating delivery.
- Stack: React, JavaScript (ES6+), Node.js, HTML5/CSS3, REST APIs, Wompi, Claude, Lovable, Vercel, Git/GitHub.
- Iterated continuously on UX, performance, and feature scope based on real user feedback.

E-commerce Storefronts — Freelance Work (2025)

- Two live Shopify stores (see Experience): custom Liquid theming, responsive design, and end-to-end client delivery.

EDUCATION

Corporación Universitaria Remington — Medellín, Colombia

Tecnología en Desarrollo de Software (Software Engineering Technology) — In progress · 5th semester (final stretch)

CERTIFICATIONS

- Frontend Development with React.js — Platzi (2025)
- Backend Development with Node.js — Platzi (2025)
- Backend Development with Java — Platzi (2025)
- App Development with AI — Platzi (2025)
- Advanced Development with Lovable — Platzi (2025)
